CONTRACTORS PLANT AND MACHINERY READING AUCTION THURSDAY DECEMBER 6th 2007

The year finished on a high with a near capacity entry of large machines and a remarkably buoyant trade despite the best efforts of the economy and the weather. Hardened buyers (and auctioneers) who braved the appalling conditions witnessed an 86% clearance of the 2,860 lots on offer, of which 26% was to overseas buyers. Roller and compressor trade in particular was at its best for some while.

Principal transactions as follows:
