CONTRACTORS PLANT AND EQUIPMENT READING AUCTION THURSDAY APRIL 17TH 2008

In general a harder trade with buyers being more discerning. Clean late machines sold as well as ever but quality was not up to recent standards. Many vendors appeared to be having a 'clear out' so more 'no bid' lots than usual. Compressors were in short supply but in great demand as were rollers. Smaller dumpers met good demand but 5T and over in particular were depressed. Hand tools, plates, garden machinery etc sold well if presented well and in working order. Good export demand with 23% going abroad. A reasonable clearance of 76%, which was down on recent sales but a sign perhaps of the current economic climate.
