DISPERSAL OF THE CRANFORD MINIATURE SHETLAND STUD

Several events have brought us to make this decision. Following a health scare four years ago, whilst arrested has not gone away, two 6 week old foals being stolen 2 years ago meaning mini mares have been moved to secure grazing which means I rarely see them, and our interest in the ridden ponies and as a consequence showing the minis in hand has taken a back seat. We have enjoyed them, and the stock being dispersed today is a culmination of our efforts with foals as good as any we have ever bred. Carrying some of the best blood available, I hope new owners will get the pleasure we have enjoyed from these ponies. ALL the stallions live together happily and all the mares are easy to catch/load and handle in every way. I have not tried to sell these on the web, preferring to let those interested, bid.

Everything is here to be sold.

With the exception of one, our standard mares and stallions are all broken to ride which means we may breed or not as circumstances/inclination determine. Two barren and two sentimental mares retained by Kevin. We will continue with our few standard ridden ponies

I will continue to promote the breed, minis and standards as I always have through shetland-pony.com until I go off 'bang' which isn't on my agenda quite yet!!

Dam : Cranford Pas-De-Deux (AA0851/M97-067) **gs:** Barflat Slider (004025S)
gd: Crown Princess (011354M)

What to say about this pony? Need some hair and fantastic colours on your stock? A doddle to handle with manners to burn. Everything we have asked, he's come up with the goods. A Pas de deux son.

141 Mr K Whitmee
LISCOMBEPARK KIP AP1312/S05-138 (245002) *Breeder : Mrs J. H. Walpole*
Cream Dun , born 13/05/2003
