HEALTH & SAFETY It shall be the purchasers responsibility to ensure safe use of any lots purchased and comply with all relevant legislation regarding the safe use of such lots.

WITHDRAWN OR NOT FORWARD LOTS Despite our best endeavours to ensure that all lots catalogued come forward for sale we are at the mercy of individual vendors some of whom regrettably do not always send the equipment entered. This inevitably causes frustration and annoyance to prospective customers who may have travelled long distances for a particular lot. **To avoid such disappointment we recommend that you make a phone call to check the availability of any particular "one off" lot before setting out.**

Please note hour and kilometre readings are those showing on the machine when accepted into the auction site. They cannot be relied upon in the event that the clock is broken or a new clock has been fitted. No warranty is given either expressly or implied whatsoever. If in doubt purchasers are advised to make their own independent enquiries as to the correctness of such information before purchasing.
