CONTRACTORS PLANT AND EQUIPMENT - READING AUCTION THURSDAY 12th APRIL 2018

A smaller entry than of late mainly due to the additional 'end of tax year' auction fitted in at the end of March, however, what was on offer met another very strong trade the highlight of which had to be the package of 2011 excavators from Barclays Asset Finance, possibly the tidiest we have seen for the year. Anything ready for work sold at a premium and if anything the smaller selection of generators and compressors brought the trade back a touch. Massive export trade for diggers and telehandlers in particular. Plenty of sales in the pipeline before we are back with the next Contractors Plant Auction on 7th June 2018.

Principle transactions as follows:
